 - Nilratan Sircar Medical College & Hospital, Kolkata
 - Dayanand Medical College & Hospital, Ludhiana
 - PGIMER, Chandigarh?
 - Sion Hospital, Mumbai?
 - KEM Hospital, Mumbai?
4. Additional points

Notes and Decisions

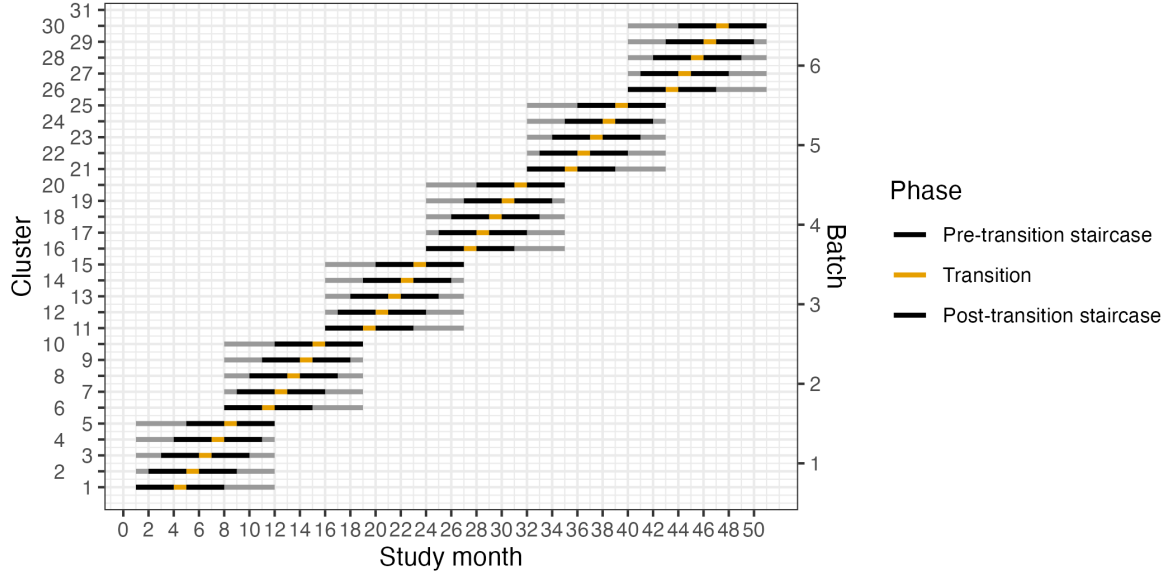

Figure 1: Nested staircase design for collecting adherence, quality of life, disability and return to work outcomes. Lines represent the duration of patient enrolment across clusters and phases. Data collection for these outcomes will happen three months before and three months after the training. During these months, we need to include at least 4 patients per cluster and month for adherence and 6 patients per cluster and month for quality of life, disability and return to work outcomes.
