

Consent

Waiver of informed consent

This only applies to patients who are unconscious or otherwise unable to provide consent and do not have a legally authorized representative. Patient participants who are included under the waiver of informed consent have to be approached and receive information about the study, the option to opt out, and consented for follow up when they regain consciousness or a legally authorized representative is present.

Is the patient included under the waiver of informed consent?

- ☐ Yes
☐ No

Opt out from in-hospital data collection
