Text for the respondent to hear is written in italic print in blue. Read this text aloud.

Say to respondent:

The interview is about difficulties people have because of health conditions.

By health condition I mean diseases or illnesses, or other health problems that may be short or long lasting; injuries; mental or emotional problems; and problems with alcohol or drugs.

Remember to keep all of your health problems in mind as you answer the questions. When I ask you about difficulties in doing an activity think about...

- Increased effort**
- Discomfort or pain**
- Slowness**
